

Larne High School

Criteria for admission to Years 9-12 in the Mainstream School

The following points must be taken into consideration before criteria can be applied:

1. A pupil hoping to transfer directly into Year 12 will need to demonstrate significant continuity in subject choice and successful completion of Year 11 Level 2 work and, if applicable, successful completion of Year 12 work up to the proposed date of transfer to Larne High School.
2. A place in a class is available where the pupil ability level is broadly commensurate with the ability and aspirations of the pupil hoping to transfer – it would not be appropriate to offer a place in a nurture setting to a high achieving pupil. Given that, for example, practical classes are limited in terms of the number of people legally allowed to be in the classroom, it may be the case that there is space in a year group, but not within a setting appropriate to the ability and aspirations of the pupils hoping to transfer to LHS.
